**SUMMARY**

Hello, I'm Samir Kadivar, a passionate Front-End Developer currently pursuing a B.Tech in Computer Engineering. I specialize in creating visually appealing web applications and have proficiency in multiple programming languages, including C, C++, Python, C#, PHP, and Java. Skilled in jQuery and various web development frameworks, I deliver engaging user experiences.

**CAREER OBJECTIVE**

To leverage my front-end development skills and programming expertise in a dynamic team, creating innovative and user-friendly web applications that drive business success.

**SKILLS**

- Html
- Css
- Javascript
- Java
- C++
- Quality assurance
- Team leadership
- Sql

**EXPERIENCE**

Jun-2024 - Till Today	Intern
codsoft	

**PROJECTS**

Project Name: Ocean of auction	Team Size: 4	Project Duration: 6 Month
Project Name: Export Import	Team Size: 1	Project Duration: 1 Month

After completing my diploma, I developed the "Export Import" website hosted on the domain asraexportimport.com. This blogging-type platform allows users to browse showcased products, while only administrators can upload new items. The project aims to provide valuable insights into export and import goods, enhancing user understanding and engagement in international trade.

**EDUCATION**

Degree/Course	Percentage/CGPA	Year of Passing
---------------	-----------------	-----------------

**Diploma - Computer Engineering**

7

2023
